

Build. Design. Logistics.

HENRY ROSE

www.ahenryrose.com

I think critically, write pointedly, and love solving puzzles—the more complex the better. I am a natural autodidact, and feel most alive in dynamic environments. I wear a lot of hats. I collect a lot of tools. I make things, and still believe in the analog. Questions > Answers.

I am looking to join a diverse team of enthusiastic, innovative people to help push the planet in the right direction. The challenges humanity faces are not insignificant. I trust we can sort them out if we act now, together, and with the right blend of pragmatic optimism.
